## A MESSAGE FROM OUR PRESIDENT

*Rick Levick, President, Long Point Biosphere Reserve*

It's turtle time in the Long Point Biosphere Reserve and across Ontario as turtles seek out nesting locations and summer habitat.

While the COVID-19 pandemic has delayed some of our planned activities such as the Annual General Meeting (AGM) and the *NatureHood* program, we've remained active on several fronts, as described in this newsletter. For example, we launched a new signage program to help protect the Biosphere's turtle populations from road mortality, a leading threat to Ontario's reptile populations. This is in addition to our popular turtle nest cage program to deter predation of nests.

We've also completed a new, pro-active approach to recruiting Directors of the LPBR Board. Last month, we welcomed six new Board members for ratification vote at the upcoming AGM. They are Graham Ferguson of Langton, Leanne Gauthier-Helmer of Simcoe, Melanie Graven of Normandale, Elaine Ho of Waterloo, Amanda Houze of Long Point/London and Cindy Presant of Port Rowan. (Further details about the Annual General Meeting are in this newsletter.)

The Board has also developed a new committee structure for addressing both conservation and education. We'll be looking for volunteers to serve on committees that could benefit from their expertise or address their particular interests.

*Rick*

---

## TWO IMPORTANT DATES TO REMEMBER

**2020 Annual General Meeting**  
**Saturday, September 12, 2020 at 9:30 a.m.**  
**St. Williams Community Centre**

Members will be voting on new bylaws. Come out and meet our new board member recruits!  
Refreshments will be served.

---

**2020 Long Point Biosphere Reserve**  
**Research and Conservation Conference**  
**Friday, November 6, 2020**

Location and registration information to follow.

Due to COVID-19, please be advised that dates are subject to change.

---

## WATCH 4 TURTLES PUT A SIGN ON YOUR FRONT LAWN

Continued high water levels in Long Point's marshes are causing turtles to wander farther afield searching for nesting sites and summer locations. That's why the Long Point Biosphere Reserve (LPBR) is lending *Watch 4 Turtles* signs to property owners along the Causeway and around Long Point.

The colorful, two-sided signs come with a wire stand for easy installation close to the roadside where they will be seen by passing motorists.

*This little guy knew just where to pose!*

Residents and cottagers in the Long Point area who are interested in helping protect our wildlife on roads by setting up a *Watch 4 Turtles* sign on their property, should contact **Cindy Presant at (519) 586-9258**, or **John Everett, at (519) 777-2873**, to arrange for no-contact curbside pick-up.

*Call John or Cindy to borrow your sign*

---

## DO YOU HAVE TURTLE EGGS ON YOUR PROPERTY? YOU CAN PROTECT THEM

High water levels have also led to turtles coming to higher ground to lay their eggs. If you have eggs on your property you can protect them by placing a turtle nest cage over them. The Long Point Biosphere Reserve have several for loan.

**Call John Everett at 519-777-2873** or email [everett.trustee@gmail.com](mailto:everett.trustee@gmail.com). You may then pick up your nest cover at 52 Beach Avenue in Long Point. The boxes are free to borrow but donations are always appreciated.

---

# ONTARIO NATURE'S YOUTH SUMMIT GOES VIRTUAL

Each September, Ontario Nature hosts the Youth Summit for Biodiversity and Environmental Leadership for high school students from across the province. With health and safety a priority during COVID-19, Ontario Nature, the Indigenous Environmental Institute at Trent University, Plenty Canada and Walpole Island Land Trust are partnering with Indigenous and non-Indigenous youth leaders from across Ontario to offer a unique cross-cultural event.

The Youth Summit will deliver an engaging online experience to develop leadership skills, connect youth with like-minded peers across cultures and grow the momentum for youth action. This year's theme is "Mother Earth" and will be held as a series of online and offline events, with livestreams on Saturday afternoons from August 22, 2020 to September 19, 2020. The Summit will offer workshops and seminars with Indigenous Knowledge Holders, Elders, and environmental leaders and experts, including youth.

## Long Point Biosphere Reserve to Sponsor Three Students to Participate

The Long Point Biosphere Reserve (LPBR) recognizes the significant importance of this experience for young people and will sponsor three students to participate.

### Criteria:

- Must be aged 14-19 or entering high school this September
- Must be available to attend all livestreams
- Must be willing to present their sponsor with a letter of thanks and a summary of their experiences after attending the Youth Summit

**Students must write an essay about why they should be selected for a Youth Summit sponsorship and submit their essays to Cynthia Brink at [education@longpointbiosphere.com](mailto:education@longpointbiosphere.com) by July 24, 2020.**

Their submissions must also include:

- Full Name
- Address
- Phone Number (Home and Cell if applicable)
- Age
- School, Grade and Interests

---

## NATUREHOOD PROGRAM EXPANDS AGAIN

With the success of the *NatureHood* Program over the last several years, Nature Canada and the Government of Canada have increased our program funding for the 2020-2021 school year.

The *NatureHood* program provides opportunities for children to explore, play, and develop a long lasting relationship with nature in their communities. The Long Point Biosphere Reserve (LPBR) collaborates with local partners in the delivery of the *NatureHood* program, engaging local elementary schools in activities in various areas of biodiversity within the LPBR. Students participate in citizen science activities that include wildlife observations and ecological monitoring of birds, amphibians, and reptiles.

Our plans this year are to provide the *NatureHood* experience to 16 classes of elementary students within the Biosphere area, five more classes than in 2019-2020.

## LONG POINT BIOSPHERE RESERVE

## Websites

### Long Point Walsingham Forest Priority Place

A significant portion of the Long Point Biosphere has been chosen as a “Priority Place” for conservation by the federal government. It's one of 11 Priority Places identified in Canada and the only one so far identified in Ontario.

Follow Maya the Turtle's Journey and check out the research and conservation database on the new Long Point Walsingham Forest Priority Place website. [Click Here!](#)

### Watch for the New Long Point Biosphere Reserve Website Coming Soon!

You will want to visit our new and beautiful, user-friendly website. We are working on it now so check back later in July here.

[www.longpointbiosphere.com](http://www.longpointbiosphere.com)

## Brochures

New Long Point Biosphere Reserve Brochures will be distributed shortly to our partners. If you wish to be on our distribution list, please contact [admin@longpointbiosphere.com](mailto:admin@longpointbiosphere.com) with your mailing address, how you will distribute the brochures, and how many you would like.

**YOU WILL KNOW AN AMAZING PLACE  
THE MOMENT YOU SEE IT**

With so many outdoor activities opening up in Norfolk County, it's time to visit Long Point Biosphere Reserve's *Amazing Places*! The Canadian UNESCO Biosphere Reserves *Amazing Places* project is a cross-Canada sustainable tourism initiative that showcases unique beautiful natural sites. Locally, our program celebrates an exceptionally rich mix of habitats consisting of open lake, beaches, dunes, ponds, marshes, forests, man-made gardens and local museums.

First, [click here](#) visit the *Amazing Places* website, then call or visit their websites to see if they are open.

---

## LONG POINT BIOSPHERE RESERVE MAKES A DIFFERENCE

- Hosted a sold-out bus tour to 11 of the 20 *Amazing Places* within the biosphere to further our work with community sustainable tourism
- United the volunteers and efforts of *Cleaning Up Norfolk* within the Long Point Biosphere Reserve's projects umbrella
- Engaged students from eleven local elementary schools in our *NatureHood* Project
- Repaired and maintained fencing and culverts as part of the *Long Point Causeway Improvement Project*
- Hosted more than 100 scientists, educators, students and the general public at the 2019 Research and Conservation Conference
- Added to the already expansive On-Line Research Document Library
- Continued monitoring salamanders in Backus Woods, a vital test of the health of the Biosphere ecosystem
- Struck a partnership with the Long Point Ratepayers Association to raise funds to mitigate phragmites
- With \$75,000 funding from Environmental and Climate Change Canada, brought together like-minded environmental groups across the County to advance information sharing in Ontario's only Priority Place designated area and obtained further funding to continue the work for the next three years
- Developed an interactive Story Map to guide the public and researchers through Ontario's Priority Place
- Presented an annual Long Point Biosphere Reserve *Sustainable Tourism Ambassador Award* to the Charlotteville Brewing Company at Norfolk County's Economic and Development Symposium
- Hosted workshops regarding topical environmental issues
